If you find yourself wondering if taking an NRT class is worth it, read the following email:
 "I have to say that this is the most exciting work I have studied since massage school. I almost didn't take the class. The claims about results sounded too good to be true. I thought, "Oh no, another hokey set of techniques that are basic massage therapy renamed and branded to make someone money in the name of continuing education." I'm happy to say I was wrong. By the time we got to the first break in the live class the work had my respect. It still feels like a magic act. I think I am just as surprised as my clients are at how well it works – still impressed every single time! I can't wait to take the lower body class and do the muscle therapy! This is truly a game changer."
